- Live guitar before the arrival of the wedding party as guests start to take their seats, so they can relax and enjoy the moment before the **arrival of the Bride**.
- 3 individual song requests learnt and arranged into guitar versions for specific parts of the ceremony, i.e. the arrival of the bride, the signing of the register and the exit of the couple. **Each wedding ceremony is as unique as each couple** we perform for, if you have any other moments within the ceremony that you would like us to perform during, or any ideas about how music at other parts might enhance your ceremony please feel free to let us know. Nothing is set in stone and **we are willing to adapt and enhance any performance as necessary**.
- One **microphone** with stand for use by whoever is conducting the wedding ceremony.
- One microphone with stand and lectern, for use in case of any **readings** that might be made during the ceremony.
- **Music** to be played after the couple have exited to their song as all guests start to leave the **ceremony** area.

The wedding ceremony itself is the **most important part of the day** and with this in mind, please note that even though there is a list above clearly defining what we offer for a wedding ceremony, we are also **very flexible**.

If you would like us to learn or play any extra songs, or bring along more equipment (extra microphones for example) that's no problem at all. We are here to help with all of your music needs for your wedding, so you can have your **dream day come true**.

*Please note should you want an original piece of music played at any point we can always substitute a **guitar version of a song** for the original recording which can be played via an iPad or such similar device.
